TWO ON THE TERRACE.

Warm waves of lavish moonlight The Capitol unfold. As if a richer moonlight Bathed the white walls with gold. The great bronze Freedom shining— Her head in ether shining— Pears eastward, as if divine The new days from the old.

Mark the mild planet pouring Her splendor o'er the ground. See the white obelisk soaring To pierce the blue profound. Beneath the still heavens beaming The lighted town lies gleaming. In guarded slumber dreaming— A world without a sound.

No laughter and no sobbing From those dim roofs arise; The myriad pulses throbbing As silent as the skies. To us their peace is given. The mood of spirits shiver. I see the wide, pure heaven Reflected in your eyes.

Al, love! A thousand years Shall range their trooping years; The morning stars their music Shall sing to countless ears. These married states may sever. Strong time this doom may shiver. But love shall last forever. And lovers' hopes and fears.

So let us send our greeting. A wish for trust and bliss. To future lovers meeting. On far off nights like this, Who in these walls undring Perforce of Time's noisy wooing. Amid the crumbling ruin Shall meet, clasp hands and kiss.

—John Hay in Scribner's.

Charcoal as a Filter.

There is always a use for a filter in every household, however sweet and clear the water may be. Even though unapparent to the eye, there are apt to be small, unsavory particles in the purest water, and the use of even a common charcoal filter will eliminate these. Charcoal, especially that made from the burning of animal bones, is the very best material for filtering. Foulest ditch water percolating through it will come forth clear and sweet as the product of a spring in a mountain.

Animal charcoal will not only remove disagreeable gaseous smells, but will also destroy all animal life in water; but wood charcoal will perform all the duties of deodorizing and clarifying.

In cities where the water supply is of a suspicious character, filters are almost a necessity, and there are many manufactured ones that serve their purpose admirably; but they are excellent, and even in many cases essential in the country, where wells and springs are the source of supply.—New York Tribune.

Worthless Human Hair.

There is a fortune awaiting the man of sufficient ingenuity to invent some use for the refuse hair of the city's barber shops. There are in the city 1,365 such shops, running on an average three chairs each, and in a grand total of not less than 1,000 bushels of hair clippings accumulate monthly. This hair is a mass of all degrees of color and quality is carried away with the ashes, no use having been found for it. Those establishments which have ladies' departments attached occasionally make use of the shorn locks of a fair customer who is generous enough to leave them behind. But the occasions are rare when the customer fails to take them away with her, so that the barber's revenue from this source is light.

One barber in this city once saved three bushels of sweepings from his shop for a plasterer. Two bushels of the stuff were returned the next day, however, the plasterer having found that it was of no use to him as an ingredient in his plaster.—Philadelphia Record.

The Kind of Man to Avoid.

Fritz Lawrence checks the impetuous Romeo with, "He stumbles over his feet," a sentiment true enough, perhaps, but one which ought never to be repeated to the constitutionally slow story teller. I like a good story and am ever ready to applaud a good story teller, but heaven save me from the deliberate, detailing, circumlocuting, expatiating efforts of the slow story teller. In the first place they seldom tell a tale that needs a rapid recital—and when they do they murder it—and in the next place the long stories, the impressively sentimental and the lugubriously funny stories they deal in chiefly are seldom worth listening to.—Detroit Free Press.

What England Could Do in Case of War.

In two weeks after a declaration of war England could place fifty gunboats on the lakes, and more than thirty armored vessels in the harbors of our leading cities, and could concentrate 75,000 regular troops in Canada, backed by a sturdy militia, ready to march across our border, while in twice that time part of her Asiatic squadron could sail through the Golden Gate.—Col. T. A. Dodge in Forum.

A French System of Ventilation.

An ingenious application of electricity for ventilation has been brought out in France. An electric fan furnishes the current of air, which can be cooled by means of ice or other cooling agent. If hot air is required, electricity is sent through a series of meshes of wire, whose high resistance causes it to become hot, and the air passing through these is given the heat required.—New York Times.

Something Not Away.

"You say the chicken soup isn't good? Why, I told the cook how to make it. Perhaps she didn't catch the idea."

Boarder—No, I think it was the chicken she didn't catch.—Brandon Bucksaw

Age Comes Slowly.

"Miss Antelope is aging very rapidly."

"You must be wrong. She is only a year older now than she was five years ago. She says so herself."

—Harper's Bazar

A Remarkable Scrap Book.

One of the most carefully guarded possessions of the United States treasury is a scrap book that is always kept shut up in a massive burglar proof safe in the bureau of engraving and printing. Scarcely any one has ever seen it save high officials of the department. Its shabby outside gives no suggestion of the precious contents, yet pasted on the yellow pages are "proofs" taken from all the important counterfeit plates for paper money that have ever been captured by the government.—Washington Star.

Mamma's Mistake.

Mamma—Dear me! You've got your clothes all covered with white wash.

Little Son—No, ma, it isn't white wash, deed it isn't; it's only paint.

Her Natural Repugnance.

Mrs. Jaspur—I shall never send for Dr. Veriswell when I am ill.

Mrs. Jaspur—Why not?

Mrs. Jaspur—Because he is so excessively polite that if he found me at death's door he would hasten to open it for me.—Harper's Bazar.

Not an Improvement.

Eastern Housekeeper—Do you have any difficulty in keeping good girls in the west?

Western Housekeeper (from a natural gas town)—Great difficulty. Every once in a while a girl lets the gas run too long before lighting it, and we have to look about for a new girl. No use looking for the old one.—Hood News.

Her Natural Repugnance.

Mrs. Jaspur—I shall never send for Dr. Veriswell when I am ill.

W. A. SELKIRK, one of the oldest and most experienced newspaper men on the coast, has purchased the Petaluma Courier. Mr. Selkirk is a forcible writer, and it goes without saying that Petaluma will now have one of the brightest and most sparkling newspapers in the county. Mr. Selkirk is not only an able writer and an experienced newspaper man, but is upright and honest in all his business dealings. We know whereof we speak for we have known the gentlemen for thirty one years. Selkirk's only fault is that he is not a Republican.

Judge WALLACE and the San Francisco Grand Jury are making it mighty hot for dishonest office holders. Assemblyman Bruner of Sacramento, Senator Williams of San Francisco and Tom Harp of Stanislaus have been indicted for bribery and corruption, and the chances are that at least a dozen other members of the Legislature will be served in the same manner. Let the good work go bravely on.

A BELFAST, Me., man who went trout fishing last week had hard luck. He relates that he caught a trout ten inches long and was looking at it admiringly, when there came a great rush of wings and something took the fish from his hands. The despoiled fisherman looked up in time to see a big crow flying away with the prize. He chased the crow several miles through the woods, but in vain, for the bird finally perched in a tall tree where he calmly lunched off the trout.

The meanest man of the season has turned up at Carson and he is beginning young. He recently forbade publication of the details of a party given in honor of his 21st birthday, because he was afraid he would have to pay poll-tax if it came to the ears of the collector. That young man will be heard from one of these days. Such a talent for simon-pure stinginess will not permit him always to blush unseen.—Ex.

The San Bernardino Times-Index thinks there must be something decidedly wrong in the dried-fruit trade this year. It says that C. K. Matteson of Highland was offered 5 cents a pound for peaches. Not satisfied with this, he packed his grip-sack and visited Michigan, where he found California peaches retailing at 20 and 30 cents a pound. The inference is that local buyers have formed a combination to keep the price down.

An itinerant fruit-dealer at Portland fell in love with a lady to whom he had sold a box of peaches. He came immediately to the point, asking her if she was married, adding that he was not, but would very much like to wed her. The lady was very much insulted and was about to retreat, when the peddler grabbed her by the waist and gave evidence of his passion by planting a kiss upon her cheek.

In the elections which took place in the Eastern States last Tuesday, Ohio and Pennsylvania were carried by the Republicans, and New York, New Jersey, Maryland and Virginia went Democratic. In Iowa, and Massachusetts honors were about evenly divided.

Some parties cultivating land in the vicinity of Lodi pay \$13 an acre for water for irrigation. The water is pumped by steam power from the Mokelumne river, but despite this enormous rental the farmers say they can make money off the land.

A CHICAGO paper has held an election on the pronunciation of the word "advertisement." The question is decided, as 250 votes were polled for "advertisement," and 230 for "advertisment," which latter has the dictionaries on its side.

In 1772 an adder was found alive in the southern part of France in the center of a block of marble thirty feet in diameter. Upon examining the stone not a trace was found by which it could have glided in.

The Western Settler's Chosen Specific.
With every advance of civilization into the far West, a new demand is created for Hostetter's Stomach Bitters. Newly peopled regions are frequently less healthy than older settled localities, on account of the miasma which rises from recently cleared land, particularly along the banks of rivers, that are subject to freshets. The agricultural or mining emigrant soon learns, when he does not already know, that the Bitters afford the only safe protection against malaria, and those disorders of the stomach, liver and bowels, to which climatic changes, exposure, and intemperance, or unwholesome water or diet subject him. Consequently he places an estimate upon this great household specific and preventive coadjutor, with its intrinsic merits, and is careful to keep on hand a restorative and promoter of health so implicitly to be relied upon in time of need.

Now Try This.
It will cost you nothing and will surely do you good, if you have a Cough, Cold, or any trouble with Throat, Chest or Lungs. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to give relief, or money will be paid back. Sufferers from La Grippe find it just the thing and under its use had a speedy and perfect recovery. Try a sample bottle at our expense and learn for yourself how good a thing it is. Trial bottles free at Ed. Wegner's Drug Store.

Specimen Cases.
S. H. Clifford, New Cassel, Wis., was troubled with Neuritis and Rheumatism, his stomach was disordered, his liver was affected, food abhorred, appetite fell away, and he was feeble, reduced in flesh and strength. Three bottles of Electric Bitters cured him.
Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and the leg is sound and well.
John Spear, Cuba, O., had five large liver stones on his leg. Doctor said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at Ed. Wegner's Drug Store.

MISCELLANEOUS.

MRS. GRAHAM'S CUCUMBER and ELDER FLOWER CREAM.

Is not a cosmetic in the sense in which that term is popularly used, but a permanent beautifier. It is a soft, smooth, clear, velvety skin, and by daily use gradually makes the complexion several shades whiter. It is a constant protection from the effects of sun and wind, and prevents sun burn and freckles. It also builds up the skin tissues and thus prevents the formation of wrinkles. It gives the freshness, clearness and smoothness of the skin that you had when a little girl. Every lady, young or old, ought to use it, as it gives a more youthful appearance to any lady, and is as certain as dew and as non-damaging to the skin as dew is to the flower. Price \$1.00, all druggists and hair-dressers, or at Mrs. G. Graham's Establishment, 103 Post Street San Francisco. Ladies at a distance treated by letter. Send stamp for her little book "How to be Beautiful."

SAMPLE BOTTLE mailed free to any lady on receipt of 10 cents in stamps to pay for postage and packing. Lady agents wanted.

Mrs. Graham's FACE BLEACH

Cures the worst cases of Freckles, Sunburn, Redness, Mottled-patches, Pimples and all skin blemishes. Price \$1.00. Harmless and effective. No sample can be sent. Lady agents wanted.

F. G. Nagle SOLD OUT!

THIS AGREEMENT MADE AND ENTERED IN to this day of October, 1891, between F. G. Nagle of the City of Santa Rosa, party of the first part, and J. W. Reginald and H. C. Brown of the same place, parties of the second part, Witnesseth: That the parties of the first part for and in consideration of the sum of SEVEN THOUSAND DOLLARS, gold coin of the United States of America to him in hand paid by the parties of the second part, the receipt whereof is hereby acknowledged, have agreed, covenanted, conveyed, transferred and set over unto the said parties of the second part and their heirs forever, all those abstracts, books of abstracts, papers, records and files of every nature and kind pertaining to the business of abstracting or conveying, including now conducted and carried out by the party of the first part, at the City of Santa Rosa, Sonoma County, also all the business now on hand or contracted to be done by the party of the first part, as Searcher of Records, Abstractor, or Conveyancer; also all the various fixtures and safe now in the office of said party of the first part, in said City of Santa Rosa.

And the said party of the first part hereby promises, covenants and agrees to and with the parties of the second part, and their heirs, to refrain from and not to carry on or conduct, or in any other manner be engaged in, directly or indirectly, as owner, employee, or otherwise in the business of Searcher of Records, Abstractor or Conveyancer in said County of Sonoma, or any part thereof, so long as the parties of the second part, OR EITHER OF THEM shall carry on a like business in said Sonoma County.

Provided, that the said party of the first part may carry on the business of conveying in any portion of the said County of Sonoma, except in the City of Santa Rosa.

In witness whereof the said party of the first part has hereunto set his hand and seal the day and year first above written.
Witness, B. M. SPENCER.
STATE OF CALIFORNIA, ss.
County of Sonoma.
On this seventh day of July, one thousand eight hundred and ninety-one, before me, J. S. PARQUER, a Notary Public in and for said Sonoma County, personally appeared B. M. Spencer, known to me to be the same person whose name is subscribed to the within instrument as a subscribing witness thereto, who being by me first duly sworn, depose and said: That he resides in the City of Santa Rosa, Sonoma County, California; that F. G. Nagle, the person whose name is subscribed to the said instrument as a party thereto is the person described in it; that said F. G. Nagle executed the same, and that he, said B. M. Spencer, subscribed his name thereto as a witness.

In witness whereof, I have hereunto set my hand and affixed my official seal, the day and year in this certificate first above written. J. S. PARQUER, Notary Public.

The Grand Jury, in view of the above facts, refused to indict. Fouts will be sentenced to the State Prison next Monday.

CITY TRUSTEES.

Opening First-street East to the Railway Depot.

The Offended Dignity of the City Sexton Restored to a Normal Condition.

The Board of City Trustees met in regular session last Wednesday evening to look after the interests of the town.

After the reading of the minutes of the two previous meetings, which were approved, Trustee Litizius, appointed at the last meeting to secure the opening of First-street East from Schocken's corner to the railroad, squared himself in his chair, and made a verbal report, while a faint smile playing around the corners of the mouth of the auster Trustee. He stated among other things that S. Schocken, the principal property owner on the line of the closed street which it is proposed to throw open to the public, had signified his willingness to open the street provided the city pay for removing the buildings now in the middle of that street, and for the building of a fence on both sides of the same.

Trustee Weyl of the same committee also made a verbal report. He had waited upon C. Aguilon, another property-owner, and that gentleman signified his willingness to throw open to the public that portion of the street enclosed within his fence. No action was taken in regard to the matter.

The dignity of the Sexton of Mountain Cemetery, which was somewhat shocked a few weeks ago by Julius Fochetti refusing to recognize his authority as a digger of graves, was restored to its normal condition last night when Trustee Weyl of the Cemetery Committee assured the offended Sexton and his fellow members of the Board that Mr. Fochetti had no ill-feeling toward the Sexton and that he was not fully informed as to that official's authority—in other words he didn't know he was loaded. The report of Trustee Weyl was taken under consideration.

Trustee Wegner of the Street Committee reported that he had given the workmen employed on the Dubring building the true line of the curb on Napa street. On motion of Trustee Weyl the report was received.

The following bills were presented and ordered paid:

G. A. Breitenbach, rebate, 30

F. L. Clark, rebate, 43

F. Cleve & Co., rebate, 530

G. H. Holtz, rebate, 150

B. Magetti, labor, 14.00

G. S. Harris, sprinkling, 50.00

F. L. Harris, services, 4.00

H. H. Granite, printing, 4.00

F. Breitenbach, three months salary, 25.00

G. W. Sparks, salary and services, 21.67

Total, \$172.54

Trustee Litizius moved that the Marshal be instructed to notify C. F. Leiding and all other property owners to have the water courses running through their respective properties properly cleaned. So ordered.

Upon motion of Trustee Weyl the Fire and Water Committee were authorized to contract for the cleaning of the fire apparatus by the year and report at the next meeting.

Dr. Vance sent in a complaint that a nuisance existed in front of his dwelling in the shape of a large muddy pool of water. The communication was referred to the Street Committee. The Board then adjourned.

Accidentally Killed Himself With a Shotgun.

On Sunday afternoon a young Swiss about 18 years of age, employed on the Hardin ranch, on Sonoma mountain a few miles west of this place, while out hunting, accidentally shot himself with his shotgun, which produced a wound which caused his death in about ten hours. It is the old, old story of pulling a gun through a fence with the muzzle foremost. The charge entered his arm. His companion, thinking that he was dead, immediately ran for assistance. The man, Frank Locatelli by name, was only wounded, however, but his clothes caught fire from the powder of the gun and when assistance arrived he was fearfully burned. He died in great agony.

The Judicial Contest.

Since the Supreme Court passed on the Rutledge-Crawford contest two briefs have been submitted. Judge Rutledge's attorneys ask that the judgment be modified so as to declare him elected, and Judge Crawford's attorneys ask a rehearing. Both motions were denied and in due time the action in the case will be transmitted to Judge Dougherty's court, when the contestant can file a new set of papers and begin again if he chooses to do so.—Santa Rosa Republican.

NARROW ESCAPE.

Little Floyd Manuel's presence of Mind Saves Him from Being Burned to Death.

On Wednesday last Floyd, the nine-year-old son of D. A. Manuel of Shellville, had a narrow escape from being burned to death. The little fellow, during the absence of his parents, repaired to the back yard where he built a camp fire for the purpose of baking apples. The fire not burning bright enough to suit the lad he went to the house and secured a quantity of gunpowder which he threw into the fire. Instantly there was a loud explosion, which scattered the burning fogots in every direction and set the boy's clothes on fire. With rare presence of mind he rushed to a large tub of water near by and threw himself bodily into the same and extinguished the flames, but not before his hair and eyebrows were badly singed and one side of his face slightly burned. A workman employed on the ranch witnessed the explosion and went to the assistance of the youngster and pulling him out of the tub after he had received a good dousing carried him to the house, applied flour to his burns and kindly cared for him until the return of his parents.

REVENGEFUL ACT.

The Steam Launch "Vixen" Scuttled and Sunk in Sonoma Creek.

The steam launch "Vixen," valued at about \$750, the property of Fred D. Spaulding was stolen on Wednesday or Thursday of last week.

The craft was anchored in Sonoma creek near Green's Landing. Mr. Spaulding offers a reward of \$500 for information that will lead to the arrest and conviction of the parties who stole his boat. It is thought that a clew has been obtained to the thieves, and if arrested they will be prosecuted to the full extent of the law.

Since the above was in type the "Vixen" has been found by Douglas Church. The craft lies at the bottom of a deep slough off Sonoma creek. She has not yet been raised. The boat was scuttled and sunk by enemies of Mr. Spaulding. The act was mean and contemptible and the perpetrators of the outrage will no doubt be brought to justice and punished for the crime. The damage to the boat is considerable.

Rubber Stamp Printing.

Ever and anon we receive some communication or other from some one who does business on such a narrow scale that he uses a rubber stamp to print his bill heads, his letter heads and his envelopes. It does not take long for one to form an opinion of the business foresight of such an individual and the conclusion arrived at generally proves a pretty correct one in the end. His goods more than likely very much resemble his printing; very shabby in appearance and, to say the least, poor in quality. A business man may save a few cents at the time by using a rubber stamp, but in the long run he loses dollars on the other hand, for the public is not so ignorant as to not know that a merchant who resorts to this cheap method of printing is apt to keep a very cheap and poor lot of goods.

Rubber printing a few years ago was quite the rage, but it has, to a great extent, died its natural death, and the men who claimed for it all the advantages over the printing press, have either become defaulters, bankrupt or died out all together.—Woodland Mail.

AN IMPORTANT BILL.

The Royal Baking Powder Contemned in the New York Legislature.

(New York Press, April 13, 1891.)

Last Monday Mr. Kelly introduced the following bill in the assembly. A careful reading of it will show that it is a very important one.

An Act to prevent the use of poisonous and injurious ingredients in baking powders.

WHEREAS, Baking Powders manufactured in this state, known as the "ROYAL" alum and other Baking Powders are advertised for sale as absolutely pure; and

WHEREAS, official examination show them to contain ammonia and other injurious ingredients; therefore THE PEOPLE OF THE STATE OF NEW YORK, represented in Senate and Assembly, do enact as follows:

Section 1.—Every can or package of Baking Powder containing ammonia offered for sale in this State shall have a conspicuous label thereon with the words "Contains Ammonia" printed thereon in plain type, not smaller than great primer and any person who shall sell, or have or offer for sale, any such can or package of baking powder without such label thereon, shall be guilty of misdemeanor.

Section 2.—This act shall take effect July 1, 1891.

The man who votes on a promise of pay becomes a faith healer.—Elmira Gazette.

It is estimated that as many as 13,000,000 of the human race have perished by earthquakes.

Deafness can't be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is no longer but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free.

Farmers, if you want a good meal go to the Union.

Established Facts:

That the ROYAL BAKING POWDER is the oldest and purest baking powder, and the greatest in leavening strength.

That it is free from every injurious substance.

That it makes lighter, sweeter, more nutritious and healthful food than any other.

The Royal Baking Powder Company refines its own cream of tartar in its own mammoth refinery, and thus insures its unvarying quality.

There is used in the manufacture of the Royal Baking Powder more than half of all the cream of tartar consumed in the United States for all purposes. This is required and must be chemically pure, and chemically pure cream of tartar could not be obtained in the markets of this country or Europe, which necessitated the building of special works, and the employment of special processes.

All other baking powders, when analyzed, show traces of lime and sulphuric acid, which arise from the impurities of the materials bought in the market, which their manufacturers use.

This is why the Royal Baking Powder is the only absolutely pure baking powder made.

For a quiet rural retreat the tourist will find the Union Hotel a first-class house. Fresh fish every Friday at the Sonoma meat market, Peter Kiser & Son's, proprietors.
